### Notices

**PHYSICAL SOCIETY.**  
A meeting of the McGill Physical Society will be held in the Macdonald Physics Building to-day at 4 p.m.  
Dr. Barnes will speak on "The Superconducting State," and Mr. Scott will speak on "Expansion of Gelatine Solutions."  
All interested are cordially invited to be present, and to note the change in the hour.

**HOCKEY EXECUTIVE.**  
Meeting of the Hockey Executive in the Union at 7:30 p.m. to-day.

**R. V. C. '16.**  
An important meeting of R. V. C. '16 will be held to-day at one o'clock. Business—To elect debaters.

**R. V. C. '17.**  
A short class meeting of R. V. C. '17

will be held on Tuesday, October 27th, at one o'clock.

**PARTIAL MEETING.**  
A meeting of the Partial Society of the R. V. C. will be held on Wednesday, October 28th, at one o'clock, in room 105 of the R. V. C.  
Business—Election of officers.

**LITERARY AND DEBATING SOCIETY.**

A meeting of the executive of the Literary and Debating Society will be held in the Union to-night at eight o'clock. As the business to be transacted is of exceptional importance, every member of the executive is urgently requested to be present.

**FOOTBALL EXECUTIVE.**  
The football executive will meet in the Union to-night at 7 o'clock.

## IMPORTANT BUSINESS TRANSACTED

When the Board of Governors Met Yesterday

### FIRST MEETING OF THE SEASON

Message of Sympathy Sent to Sir William Macdonald

At the first meeting of the Board of Governors held this session, it was resolved to send a message of sympathy and high regard to the Chancellor of the University, Sir William Macdonald, in his protracted illness, coupled with an expression of the hope that he might still be spared to see more of the fruits of the good work that he has done for McGill, as well as for the whole Dominion.

The late Col. Burland was Hon. Col. of McGill's contingent of the Canadian Officers' Training Corps, and he had been associated with the administration of the University and of other departments of the work.

The Board of Governors, therefore, resolved to send sympathy to his wife and sisters. On the recommendation of the Faculty of Law it was resolved to renew the appointment of Honourable Mr. Justice Greenfield to that department, which is to be vacated when Dr. McIntosh leaves for the University of British Columbia. He will be in charge of teaching and investigation in the Department of Physical Chemistry.

Mr. James Murray, of Sheffield, Alberta, was appointed to the Chair of Cereal Husbandry in Macdonald College. Various other appointments were made to lectureships and demonstratorships in various other departments.

Progress was reported in connection with the work on the new gymnasium and the gymnasium committee was requested to go forward with its study of the scheme of a combined gymnasium and drill hall on the site fronting Pine Avenue.

In connection with the McGill Battalion it was stated that arrangements are in progress for a conference between representatives of the University and the Militia Department at Ottawa, the object being to ascertain just what part the Militia Department would wish the universities of Canada to take in connection with the present crisis and also to determine what it would be proper and possible for the universities to offer.

## STUDENTS' BAND MEET AT HALL THIS EVENING

Important Practice Will Be To Prepare for Battalion Drill on Wednesday

There will be an important practice of the students' band in Strathcona Hall to-night at 7:30 in preparation for the Battalion drill on Wednesday. The Band has an important part to play in the future success of the McGill Regiment. It is hoped that every member will be on hand at the Hall to-night.

## FIRST UNIVERSITY JOURNAL OF WEST WAS INAUGURATED

Officers and Staff Chosen to Take Charge of New Publication

At perhaps the greatest history-making meeting in Western Canada educational circles, held last week in Winnipeg, officers were chosen to edit and manage the first university journal of the West. There was a full attendance of representatives from each of the several departments of the University of Manitoba. The rules and constitution of the journal were affirmed and approved by President MacLean, of the University. H. H. Hunt was elected editor-in-chief, and he will control all departments coming under the editorial head. T. B. Brandon was elected business manager, and head of all financial departments. He performed his new necessary duties as subscription manager of the Western Canada Manitoba. Associate editors were also chosen at meetings held by the different faculties beforehand.

## VASSAR GIRLS PRACTICE ECONOMY

Miss Lillie T. Homan, of Brooklyn, is a student member of a committee named at Vassar to devise some way to transfer \$17,221 spent for "organized pleasures" at Vassar to some purpose of "social justice." The "pleasures" include class dances.

This is the outcome of an address on the war by Dr. Herbert D. Miller, professor of Economics, who recommended not cutting down expenditures, but a transfer of expenditures where they are most needed.

## Meeting Held By R. V. C. '15

For the Election of the Debaters for the Delta Sigma Society

A meeting of the R. V. C. Seafarers was held yesterday (Monday) with the president, Miss Zoe Smith, in the chair. The chief business was the election of debaters for the Delta Sigma Society. Miss Netta Hardy and Miss Laura White were unanimously elected.

## STUDENTS ARE PLEASED WITH THE NEW PLAN

Decision of Faculty is Sole Topic of Conversation Among Arts Undergrads.

### MANY APPLICATIONS FOR EXEMPTIONS

Physics of First Year and French of Second Most Likely to Suffer

The decision arrived at by the Faculty of Arts to grant exemption in one subject to undergraduates in that faculty entering the McGill regime, provided practically the sole topic of conversation among the members of the First and Second Years yesterday. "What subject are you going to drop?" was the question on every lip, and many were the expressions of approval voiced in regard to the decision of the Faculty.

In the First Year Physics and Mathematics were the two subjects which were most frequently mentioned in the applications for exemption, while it is expected that the attendance at Second Year French and History lectures will be considerably depleted. There is a feeling prevalent, however, among the upperclassmen that lectures in the subject from which they are exempted can well be attended without the necessity of taking examinations. By three o'clock yesterday afternoon there were over fifty applications for exemption lying on the janitor's table, and it is expected that this will be largely increased to-day and to-morrow. Many students have as yet been unable to choose their subject for exemption. It would appear that the action of the Faculty will be a decided impetus to recruiting in the new regime. There will be a meeting of the Arts Faculty this morning to deal further with military matters.

## STUDENTS EXPELLED FOR PARTICIPATION IN WEEK-END ORGY

Prompt Action Taken by University of Washington Authorities

The expulsion of three men students at the University of Washington, members of the Freshmen and Sophomore classes, for participating in an alleged "immoral orgy" at a house party on Vashon Island, was announced last week.

Commenting on the expulsion of the three students, Acting President Henry Landis, of the University, said: "In conference with some of the high school principals of the city we have found that it is not an uncommon occurrence for university and high school students to have week-end parties on Vashon Island. While some of these parties represent good, wholesome recreation and enjoyment, it is clear that others are deliberately planned to indulge in vice and wrongdoing. At a recent week-end party on Vashon Island such gross immorality was practiced and such diabolical offences committed that the truth is almost unbelievable. When it was proved conclusively that three of our students were members of the party and were guilty of these charges they were promptly expelled from the university."

Oklahoma.—The average weight of the Oklahoma team is 160 pounds. The heaviest man in the backfield weighs only 160 pounds.

### Futurities

TO-DAY.

5:15 o'clock—Gym. class.

## CANVASSERS OFF TO START IN CAMPAIGN

Enthusiastic Supper Held at the Hall Last Night

### GIVES PROMISE OF GOOD RESULTS

Mr. McConnell and Mr. Birks Give Some Advice

The annual financial campaign of the McGill Y.M.C.A. was given its initial momentum at a very successful and enthusiastic gathering held in Strathcona Hall last evening.

After having partaken of the supper provided by Mr. G. Heslam, of the Social Committee, the chairman, Mr. Phineas Fletcher, called the meeting to order. Mr. Walter Scriver, the treasurer of the Association, explained how the campaign was to be conducted and offered a few words of expert advice to those who were attempting the canvassing for the first time. The main thing is that every man be approached and that each student when approached receives the canvassers in a pleasant way and does his best to fulfill expectations.

Mr. J. W. McConnell, well known in Y.M.C.A. circles, then took the floor. After congratulating the assembly upon their fortunate position as McGill students, he explained that he was present for the purpose of explaining some theories in the art of canvassing. Judging from the past, however, such a task was well enough trained, so he would merely hand on a formula he had found useful.

This would be applicable in all kinds of endeavor and its use would always ensure success. The key word was "head," the letters standing for: hard work, enthusiasm, ambition and determination. The latter meant approaching a man and "selling" to him the double the expected amount had been secured. He also advised the collectors not to forget to canvass themselves to the limit as well.

Mr. Birks followed with some good sound advice, laying stress on the great benefit derived from canvassing work. Especially is this the case when one has such a worthy object to work for. Every student at McGill should feel proud of the Y.M.C.A. and its world-wide work and will never invest a few dollars better than in assisting our own branch.

The canvassers, he it understood, were not seeking for a personal cash but are offering to all McGill undergraduates opportunity which cannot be overestimated. Each contributor will feel an interest in Strathcona Hall and its various undertakings following upon a donation given in the proper spirit, which will mean not a little in future years.

## MANITOBA STUDENTS IN MONSTER PARADE

United Winnipeg Colleges Will Hold Hallow'een Celebration

A great gathering of all branches of the University of Manitoba and a United Students' parade will be held on Hallow'een evening, October 31. All Hallow'een student bodies will gather on their own grounds and proceed to the university campus, where they will be marshalled in columns. After such organization the procession will form and proceed along the principal streets, carrying with them their college yells and songs. After telling Winnipeg who they are and what they are out for, the rag rag boys will proceed to one of the local theatres, and take possession of one of the seats of the theatre. More fun will ensue, and a general good-humored time will be enjoyed.

Preliminary arrangements were decided at a meeting recently when representatives of Manitoba, Victoria College, Medical College, Wesley College, St. John's and Engineers were present. About 1,000 students will take part in the monster parade.

## P.E.I. RHODES MAN WILL BE SELECTED

An election of the Rhode scholarship will take place during the month of December, in each year. The scholarships are of the value of \$300, and are tenable at Oxford for three years. Full particulars on conditions of which they are awarded may be obtained by applying to the chief superintendent of education in Charlottetown, to whom all applications should be addressed not later than October 31st in each year.

The Rhodes Trust, Seymour House, Waterloo Place, London, S. W.

## PROFESSOR AT YALE WINS \$10,000 PRIZE

The \$10,000 prize offered by the National Federation of Musical Clubs for the best grand opera written in English has been awarded to Professor Horatio Parker, of Yale, who composed the music, and Brain Hooker, of New York, who wrote the book. The opera's name is "Fairy Land."

Under the terms of the competition, in which fifty-four persons entered, the production will be made at Los Angeles next summer. The authors three years ago won a prize for their opera "Mona," which was said to have been an artistic but not a financial success.

## Arts Sopho Had Class Meeting

H. B. O'Heir Elected as Captain and Manager of Class Football

At a meeting of Arts '17, held at ten o'clock yesterday morning, arrangements were completed regarding the purchase of the class picture, and a representative to the football executive from the year was elected in the person of H. B. O'Heir. Afterwards, by the unanimous vote of the class, O'Heir was placed in charge of the class football team as captain and manager. Arts '17 has some promising material in sight for the class team, and expects to make a good fight in the inter-class series. Practices are to commence shortly.

## "V. OF I." STUDENTS HAVE TIME CLOCK

At the University of Illinois every student must punch a clock at the beginning and end of his period. The system is working very well, especially in the Agronomy Laboratory. It has been installed so that the students may do their work at the most convenient time.

## Class Meeting of R. V. C. '18

A class meeting of Arts '18 was held in the Royal Victoria College on Monday, October 26. The president, Miss Bernice Boyd, was in the chair. The chief business was to decide upon a certain sum for a class fund. The sum of \$1 was agreed upon. Miss Ruth Goodwin was elected basketball manager for the Freshman year. Miss Boyd asked that all subscriptions to the McGill Daily be handed in to the secretary-treasurer, Miss Fowler, by the end of this week.

## PROFESSORS WILL SERVE IN RANKS

Prof. R. J. Bateman, M.A., and Prof. Louis Brehaut, M.A., B.S., of the University of Saskatchewan, have enlisted as privates for the second contingent. J. Edson Reaney, bursar of the University, has also enlisted, as have five students of Emmanuel College, in Saskatoon, and a half dozen law students of that city.

The chairs of the professors will be held open for them, and they will receive half pay from the University during their absence. The professors, students and other known men in various walks of life have all been medically examined and duly sworn into the active service. All of them will go with the contingent now being raised.

MASTER THE DETAILS

Instead of a drill yesterday afternoon the McGill Regiment received a "talk" from Major Burton, whom Lt.-Col. Starke very wisely asked to address the Battalion. The Major chose as his topic, "The Duties of an Outpost in Active Service." His graphic description of this particular branch of an active campaign, gave a vivid picture of the importance and tremendous responsibility of a soldier's duties.

Unlike most speeches which the students hear, Major Burton's remarks were frank. His constructive criticism on the details, or the lack of details, of our drill which he had seen, impressed his hearers with the necessity of paying the strictest attention to the minutest points. We realize now that in order to become a crack regiment, a desire which is not foreign to a single man, it is absolutely necessary that we understand the importance of becoming individually efficient.

WORK

He is a fortunate being who learns that nothing can be attained without work. We see every day, men well advanced in life, looking for a snap, and the pathetic part is, that they have been looking for this impossible commodity for many years. There is perhaps no place where more men look for snaps than in a university. There seems to be great pride in the bosom of those, who, with a deep sense of satisfaction, announce that they have done no work in a particular subject. If one learns while at college that success is proportional to the amount of work done, he has gained knowledge which will serve him in his life's work to great advantage, and be of inestimable value to his future career.

Reasons For Necessity of Financial Campaign of The McGill Y. M. C. A.

An Outline of the Work Carried on by the Student Organization

Two dollars a man—this is what the Y.M.C.A. will need this year to make the mare go. Many things have been planned for this year that will have to be curtailed, but the main business of the institution must go on as usual.

Murray Brooks must be supported in his work for the students in Colombia, Ceylon. McGill has for many years been the sign and symbol of better days since the first secretary was sent some fourteen years ago, and this work must be supported.

Then again, the Y.M.C.A. has planned and will carry on, some practical relief work in the city during the winter months. For several years the Ladies' Auxiliary of the McGill Association have given free Sunday morning breakfasts to over 300 men in the old Brewery Mission. McGill men have always taken a keen interest in this kind of practical charity, and this year with the further co-operation of outside help, we are hoping to give those morning feeds twice a week instead of only once.

Almost every day now, even before the cold weather has come, the secretaries at the Hall are besieged with requests for help. Our energies in this direction will have larger demands made upon them than ever before, and we must be prepared to do our part.

Not only we allow the spiritual and moral interests of student life to be lost sight of at this time, our Sunday services have been helpful to many fellows in other years, and though we have diminished the number of Sunday meetings, we feel that we are warranted in continuing the services at least once a month.

Perhaps this year, more than ever before, there will be felt in McGill the need of that cheerful optimism which has characterized this far the attitude of the Empire towards this great war and all its dread wake of suffering. The Y.M.C.A. plans, therefore, to entertain as much as possible. Informal gatherings such as "Conversables" and skating parties do much to break the ice between the younger students of both sexes, and are a pleasant break in the year's work.

All the above activities and others which are well known, form a constant drain upon resources. It is hoped that there will be a generous response to this appeal for funds.

E. A. CORBETT.

UNIVERSITY MAY REJECT FLUNKERS.

That a University has the right to refuse entrance to a student who has been dropped because of unsatisfactory scholastic work, was the substance of a decision handed down recently by an Illinois judge. The question was brought in a mandamus suit brought against the University of Illinois, through its trustees. Evidence showed that the plaintiff failed to pass a single subject last year, save military and physical training. When he applied for entrance this year he was "fused."

In his decision the justice said: "It would not only be useless for a student to try to carry his load, but his falling would be a hindrance to the rest of the class. His reinstatement is at the discretion of the University."

Attorneys for the plaintiff argued that the University was a public corporation and was bound to admit every resident of the state, regardless of his mental attainments.

"How are you going to tell when there is anything of importance going on?" asked one war correspondent. "I'll keep my eye on the censor," replied the other. "When there's nothing given out for publication, you may know it's time to hustle and get to news."—Washington Star.

"Right in the midst of the advice you were giving him you broke off and hurried away." "That's what I did." "But he was listening deferentially to all you had to say." "You bet he was. I never had a man listen to me that deferentially that he didn't try to touch me for five dollars before I got away."—Houston Post.

"Figs—"That Parle editor who was assassinated left a fortune of \$500,000." "Griggs—"He wasn't an editor. He was a journalist."—Cleveland Plain Dealer.

Toronto University C.O.T.C. Receives Official Sanction of The Militia Department

President Falconer Addresses Mass Meeting of Students in Convocation Hall—No Lectures or Lit. After 4 p.m.—1,200 Enrolled So Far

"Formation C.O.T.C. authorized, provided arms and ammunition not demanded until after embarkation of second contingent. Details regarding composition under consideration."

The above is the text of a telegram received by the authorities at Toronto from the Acting Adjutant-General at Ottawa, and read by President Falconer to the University men assembled in Convocation Hall at noon Wednesday. This message, which has since been confirmed by letter, comes as a reply to an application made a short time ago, to the militia authorities for permission to form a Canadian Officers' Training Corps in connection with the University.

In the course of a short address the President pointed out that authorization to go ahead is now complete, and the duty of the men of the University is plainly evident. The University is prepared to go to considerable lengths to avoid letting academic work interfere with regular drilling and all lectures and laboratory work after 4 p.m. will be cancelled.

The details as to official strength are not yet available, and it is possible that the number volunteering will exceed the official requirements, but drill will be given to all, the object being a military training sufficient to enable each man to qualify, if not as a commissioned officer at least for service as a non-com, or private. However no obligation to go to the front

Things Theatrical

AT THE ORPHEUM.  
Again at this popular play house a well balanced bill was presented to a large and enthusiastic audience.

The head liner is called "Fun in a Bunk House" and is a very original piece of burlesque that was loudly applauded, one of the principal attractions in this turn was a boxing match between two of the smaller members of the troupe.

Ellen Orr, a soprano, sang several new songs in a very pleasing manner, and Harry de Costa, at the piano, played several good medleys.

Willie Weston sang very well rather humorous songs, and was encored by Percy Branson and Winnie Baldwin, too, are singers that added their quota of song and dance.

Al. Fields and Jack Lewis, in their skit "The Misery of a Handsome Cab," each tried to out-lie the other in a rather fine style.

Marion Murray and Company, in "A Woman Prima Donna," gave a rather farcical sketch of the life of a prima donna and her trials to get her name in the papers.

The Seebachs, in their bag punning act, and the Cronwells filled out a good bill.

TWELVE USEFUL DON'TS

Lord Curzon's Hints for the People at Home

Lord Curzon, addressing a meeting at Harrow, gave the following twelve pieces of advice:

Don't think the war does not affect you individually.

Don't be overjoyed at victory; don't be down-hearted at defeat.

Don't be unscrupled by personal or family considerations.

Don't be frightened at the casualty lists, so long and sometimes so distressing.

Don't think that you know how to wage the campaign and that the War Office does not.

Don't get nervous because the progress of the war is slow; it can only be slow in these stages.

Don't believe all that comes from Berlin.

Don't underestimate the enemy.

Don't waste breath in attempting to ascertain what is to happen to the German Emperor in this world or the next. We will endeavor to dispose of him in this world.

Don't begin to divide up the German Empire before you have got hold of it.

Don't listen to anyone who cries "Halt!" before we have carried out the full purpose for which we are fighting.

When the war is over don't throw away the lessons of the war.

EXCHANGE OF PROFESSORS.

As in previous years, there will be an interchange of professors during the present term between the Universities of Manitoba and North Dakota. For a short period two professors of the one university will change places with two of the other. The arrangement is considered fraught with excellent results, not only for the professors themselves, but for the universities they represent, and it is likely to be continued in the future. So far, the professors who will figure in the interchange this year have not been named, but the selection will soon be made.

AMHERST'S REGISTRATION 410.

According to the recently issued directory of Amherst College, the total number of students registered is four hundred and ten—four more than the figures for last year, when four hundred and six undergraduates were enrolled. The men are distributed by classes as follows: Seniors, 92; Juniors, 86; Sophomores, 104; Freshmen, 125.

Lafayette has expelled fifty-four of her students who participated in hazing.

The scholastic average of Cornell's athletes is 71.3, while that of fraternal athletes is 70.7.

Track athletics have been taken up by the men of the University of California.

Question has been raised as to whether college fraternities are subject to the provisions of the new income tax. The lawyers at Cornell claim that they are not.

Professor Magalhães, of the electrical engineering department of the Japanese Imperial College at Port Arthur has registered at Union College as a graduate student in the electrical engineering.

California.—The blenchers at the University of California will accommodate 23,000 people.

Kansas.—Students in India study for an education that will pay them in the work of the world. The idea of an education for the sake of the knowledge is not the ambition of the students in India.

Tennessee.—The members of the University of Tennessee Alumni Association are going to purchase the Cherokee tract for a new and larger athletic field for the University.

Pennsylvania.—The law school of the University of Pennsylvania requires for entrance a college degree.

Dakota.—For the exclusive use of officers, classes, the University of Dakota has erected a new building costing \$75,000.

Kentucky.—The University of Kentucky maintains for the benefit of the working men and women of Lexington, a night school.

Tennessee.—A novel contest for supremacy was introduced when the clubs of Harvard, Columbia, Dartmouth and Pennsylvania met. The prize, a library of music, was awarded to Harvard.

Minnesota.—Four students of this college while out speeding Saturday night, week ago, skidded and collided with the police patrol. As a result of the collision, two young ladies and one man were killed, the fourth party being seriously injured.

Kansas.—Evangelistic meetings to take place on the campus of Kansas University next term will be in charge of John R. Mott. Mr. Mott felt called from the scene of war in Europe to the students of Kansas University.

The Freshmen in the various colleges are being initiated just now. In Western University, London, Ont., the newcomers had part of their clothing removed and then were tarred and feathered. In Ontario Veterinary College, Toronto, the sixty victims singled out for torture were coated with a mixture of axle grease, shoe polish and lard. The indignity shown by the tormentors suggests the thought that they might be employed to prevent a punishment for the highly-cultivated gentlemen responsible for the war in Europe. The vengeance in such a case might be almost severe enough to fit the crime.—The Gazette.

**Men's \$1 and \$1.50 Night Shirts 79 Cents**

We have 400 too many. These we shall sell at .79, but not more than 400. You can accept the very letter of this advertisement when we tell you that \$1.00 and \$1.50 never bought for you or anybody else in a regular way a better flannelette night shirt than those on sale at Goodwins Tuesday at .79. All sizes 14 to 18.

Conservation Commission Issues Special Bulletin

A Special Bulletin Issued by the Commission on the Care Taken and the Abuse Given to Farm Machinery by the Canadian Farmers

Recent investigations by the Conservation Commission reveal some very interesting facts regarding the effect of care, or neglect, as the case may be, upon the life of machinery on the farm. Between 20 and 25 years, divided into three districts, were visited in each of the provinces of Manitoba, Saskatchewan and Alberta.

In Saskatchewan, out of 94 farmers visited by the Commission's representative, 76 leave all of their implements out of doors. On 73 of the farms, there were no implement sheds of any description. Of 21 of the farms, sheds large enough to cover a part of the implements were found, in most cases, this being only a buggy or a demerol, but not on one single farm was the machinery all housed. Not one farmer was found who painted his implements to protect them from the weather.

In Manitoba only 14 out of 41 keep their machinery under cover during winter, while 14 claim to keep a part of it inside. On 34 of the Manitoba farms no provision whatever is made for protecting implements, and only four claim to have done any painting.

In the three districts visited in Alberta, mixed farming is carried on quite extensively, making more barn room available, so that implements are more likely to be protected, and even here, 27 out of the 42 visited leave all machinery out of doors.

In one district in Ontario, where 40 farmers were visited, every man housed his implements during the winter, although none of these men do any painting.

In the Ontario district visited where the implements are housed, the average life of the binder was found to be between 16 and 17 years. Many binders were seen which were in good running order after cutting 20 seasons' crops.

In Saskatchewan and Manitoba, where so much of the machinery is left out of doors, the average life of the binder is given by the farmers as about seven years, which is less than half that of the binder protected from the weather. Many binders do not last as long as seven years. One farmer near Mooseh, Sask., who, after 12 years, was retiring from the farm, held an auction sale. His binder, after cutting 12 crops, sold for \$80, or 50 per cent. of the original cost, and his other machinery, at a proportionately high price. It had all been well housed, and the necessary painting and repairing had been done to keep it in good order. On a neighboring farm a binder which had cut only three crops, but which had been neglected and had stood out of doors, was being relegated to the scrap heap, and a new one was being purchased.

An implement shed costs money, but if its use will double, or triple the length of time the machinery will last, it is a good investment. Farmers often say that they cannot afford to build a shed. The truth is, they really cannot afford to be without one. Apart from the additional power necessary for operation, the depreciation on un-housed machinery on the average sized farm is so great as to amount to much more than the cost and upkeep of an implement shed. The binder works for only a short time during the year, while machinery in a shop works the whole year through and lasts proportionately many times longer. It is simply a matter of care. The life of a machine extends in direct ratio to the care it receives, and abuse and neglect will shorten the life of any mechanism. The manufacturer is not responsible for the care of the machinery after it is sold. This rests entirely with the farmer, and as a common-sense business proposition, he should look after his own interests sufficiently to house his implements and thus save the thousands of dollars wasted annually in unnecessary depreciation.—F. C. N.

**WOULD TAKE NO CHANCES.**  
The magistrate had asked all of the customary questions about taking "this woman" or "this woman" for a lawfully married companion, and about "promising to love, honor and obey." The ceremony was finished, a court, a western Kentuckian, started to reach for his wallet. Then he stopped.

"Squire," he said, "I got a proposition to make to ye. I'll give \$2 now or I'll wait six months and give ye \$200. I think my wifes looks at the bride for a moment. I believe I'll take the \$2 now." He said—Exchange.

**THE POSSUM'S TAIL.**  
Capt. Brinton B. Davis has returned from his annual outing with the Junior Hunting Club on Lake George, Fla., with a batch of anecdotes. Several of them relate to "the days before dawn" who still holds forth on the jumper hunting preserve and plots the Louisville Indians, who otherwise might end up heaven knows where.

Jim was out with Hugh Navin one day. Following the line of what were plainly footprints was a small, continuous fox track.

"What kind of a track is that, Jim?" asked the puzzled Mr. Navin.

"That's a possum track, sah," explained the old negro.

"But how does he make that farrow?"

**TO PERSISTENT.**  
"I insist on an answer to my question. You have not told me all the conversation. I want to know all that passed between you and Mr. Jones on the occasion to which you refer."

Reluctant Witness—"I have told you everything of any consequence."

"You have told me you said to him, 'Jones, this case will get into the court some day.' Now, I want to know what he said in reply."

"Well, he said, 'Brown, there isn't anything in this business that I'm ashamed of, and if any snooty, little, see-hawing, four-by-six, snit-eyed lawyer with half an ounce of brains and sixteen pounds of jaw, ever wants to know what I've been talking about, tell him.'—Tit-Bits.

**DIDN'T KNOW THE DIFFERENCE.**  
A well-known theatrical manager was watching his stage manager drill some "squires" who were to represent an army. "Not a bit like it," he exclaimed, "why don't you try to look like real soldiers?"

The stage manager approached him. "They are real soldiers, straight from the barracks," he whispered.—Tit-Bits.

## Constitution of Canadian Intercollegiate Athletic Union

It should be noted by managers and would-be managers of athletic clubs

1. The Union shall be called "The Canadian Intercollegiate Athletic Union."

2. The object of the Union shall be the encouragement of systematic physical exercise and the supervision and control of all Canadian intercollegiate athletics.

3. (a) The membership of this Union shall be Active and Associate.

(b) The Active Members shall be the Athletic Associations of McGill University, Queen's University, and the University of Toronto; and the Associate Members—the Athletic Associations of such Colleges and Schools as are admitted on the unanimous vote of the Active Members.

(c) McGill University shall include the Divisions, Presbyterian, Wesleyan and Congregational Colleges, Queen's University shall include the School of Mines, the University of Toronto shall include the University of St. Michael's, the Royal College of Dental Surgeons, the Ontario College of Pharmacy, and the Ontario Veterinary College.

(d) None but Active and Associate members in good standing in intercollegiate athletics.

(e) No rule of a playing Union to which exception is unanimously taken by this Union shall be valid.

(f) The Governing Body of this Union shall be composed of three Governors from each Active Member elected annually; at least one Governor from each University shall hold a seat on the Faculty of his University and be otherwise qualified to represent the teaching body of that University.

(g) Each Associate Member may have a representative present at any meeting of the Governing Body of the Union, who may make representations thereon.

4. The officers of the Governing Body shall be a President, a Vice-President, and a Secretary. The President shall be elected annually; the Vice-President and Secretary shall be elected by the Active Members at the Annual Meeting to be held in the month of March.

5. The President may call a meeting at any time and may do so on the request of two Active Members of the Union. A quorum shall be constituted when all the Active Members are represented at a meeting.

6. Notice of all meetings and of business to come before each meeting shall be given in writing by the Secretary to all those qualified to attend, at least three days before the meeting.

7. (a) The entrance fee shall be Five Dollars for each Active Member, and the expense of the Union shall be levied annually upon such Members.

(b) Associate Members shall pay an annual fee of One Dollar towards the expenses of the Union.

8. Definition of an Amateur:—

An amateur is a person who has never

(A) (1) Entered or competed in any competition for a stake, bet, money, private or public, or gate receipts.

(2) Taught or assisted in the pursuit of any athletic exercise or sport as a means of livelihood.

(3) Received any benefit or payment in lieu of loss of time while playing as a member of any club or engaged in any athletic sport or exercise, or any consideration whatever for any service as an athlete, except actual travelling or hotel expenses.

(4) Sold or pledged his prizes.

(5) Promoted an athletic competition for personal gain.

(B) (1) Competed with or against a professional for a prize or where gate receipts are charged (except as may be specially provided for by By-Laws in this regard).

(2) Entered in any competition under a name other than his own.

Notes.—Reinstatement will not be considered in case of the violation of any of the conditions implied in (A), but may be considered if one or more of the conditions implied in (B) alone are violated.

The above shall not be held to apply to the Professional coach of a Cricket Team.

## POLOISTS PLAY DOUBLE HEATER WITH MONTREAL

This Evening at 8.15 in the M.A.A.A. Tank

The McGill Senior and Intermediate Water Polo teams will play the M.A.A.A. teams this evening at 8.15 p.m. in the M.A.A.A. tank.

Four of last year's players are again playing for McGill, Smith, Patterson, Hodgson and Pengelly. Roseburgh and Lester are the other two men on the team. Roseburgh played goal for the Intermediates last year, while Lester started with the M.A.A.A. team. The M.A.A.A. team this year are as strong as usual, and can be counted upon to make the McGill team go their limit.

The intermediate team will be chosen to-night. The practices of the seconds so far have been very successful and they can be relied upon to make a good showing.

The seniors will line up as follows: Goal—Roseburgh. Backs—Smith and Patterson. Centre—Hodgson. Forwards—Lester and Pengelly.

## VIRGINIA TAKES COTTON FOR TUITION

According to reports, the Dean of the University of Virginia is instructed by the Board of Visitors to receive cotton in lieu of money in payment of tuition fees. After a heated discussion the board decided that for the current session students would be allowed to pay all of their tuition with United States warehouse receipts, such receipts to be accepted at a rate not to exceed ten cents a pound for the cotton.

Because of the present condition of the cotton market, a great number of students residing in the cotton belt were about to be deprived of the privilege of registering this year.

Virginia has the distinction of being the first to come to the aid of students in such a manner. In fact, it is believed to be unique in the history of educational institutions.

## ARMY WILL MEET NAVY NOVEMBER 28TH

After being declared off three times, the Army-Navy football game will be held in Philadelphia, November 28th, Secretary Daniels has announced. The Army and Navy athletic board have agreed upon a five years' schedule, the games alternating between Philadelphia and New York, and Secretaries Garrison and Daniels have approved of this.

(c) Should the Academic standing of any competitor be called in question, as not complying with the foregoing conditions, then such objection shall be communicated to the Member of the Board of Reference representing the University of which the student is a member, and should such Governor decide that in his opinion the student is eligible to compete, the certificate shall be valid, but not otherwise.

(f) Should a student whose standing is called in question belong to a College or University, or School having Associate Membership, then the eligibility of such student shall, after conference with the Athletic Association to which he belongs, be decided by the Board of Reference.

12. The constitution of this Union shall not be altered, except by the unanimous vote of the members present, and notice of the proposed alterations shall be given to the Secretary in writing at least one month before the meeting and he shall forthwith notify the Secretaries of the various Associations of the proposed change or changes.

13. The Secretary of the Athletic Association representing the team playing at home shall be responsible for the reporting to the Secretary of the C. I. A. U. of the names of all the players of both teams. Such lists must be mailed within one week after date of game. In case of failure to comply with this regulation, a fine of Ten Dollars (\$10.00) will be imposed upon the home association.

## GRIDIRON GRIST

(BY "FIELD GOAL")

Now that the Intercollegiate season is half finished, a good idea of the relative strength of the three teams in the league can be derived. McGill are at the top of the heap at present with two wins and no losses to their credit, while Toronto Varsity is in second place, having one win and one loss checked up against them, and Queen's bring up the rear with two losses and no victories for their record so far this year.

McGill decisively defeated Varsity in Montreal by the score of twenty-five to one. It must be taken into consideration, however, that the McGill team has been weakened somewhat since then, by the withdrawal from the University of some of its strongest men. Consequently, Toronto has perfectly good reason for hoping to give the Red and White a battle royal when the seventh of the month comes along. On the other hand, Queen's managed to hold Toronto to a closer score when playing in the Queen's City than they could McGill when they and them in Kingston. This would go to show that the Red and White must be even stronger since they made so many changes in their line-up; but then again there is the fact to be remembered that the game in the Limestone City, which from the score might appear not to have been very close, was certainly just a toss-up for some time; in fact, until the last few minutes it was anybody's game. Most football critics would be unwilling to admit that the reorganized McGill team is as strong as that which defeated the Blue and White in Montreal at the beginning of the present season; but Shaughnessy has promised that McGill will come off victorious in Toronto again this year, and when the big coach makes a statement like this he generally manages to live up to it. For the next two weeks every effort will be made to put the Red and White squad into the very best condition possible, while at the same time they will be thoroughly instructed in the plays which they now have in their repertoire, and several new ones have been prophesied for the big fixture in the Queen's City.

Queen's, of course, might put the Blue and White out of the race for the championship by defeating them next Saturday in Kingston, but often in former years this possibility has been predicted, but it has never come off as yet. But no matter whether the Tri-color ship one over on Varsity or not, McGill will strive by all means by its power to defeat their old rivals in the Queen's City a week from the coming Saturday. If Queen's by any chance did down the Blue and White this week-end, they would be dangerous contenders for the premier honors, as McGill would then have to win one of their remaining games to stay in the running. Queen's best chance of winning a game this season comes on Saturday of this week, and if they go down before the Blue and White it would hardly be likely that they would win from McGill in Montreal; whereas, if they defeated Varsity, they might get going and give the Red and White a very stiff argument in the last game of the season.

However, at present, the only two real contenders seem to be McGill and Varsity, and it looks very much as if the Red and White must figure on winning the big encounter with the Blue and White in Toronto, to prevent there being a play-off. A tie in the league, which, of course, would make necessary a play-off, would be rather unfortunate this year, as there would hardly be the same interest taken in it as was shown two seasons ago. The disturbed condition of things is sure to make itself felt in every branch of activity, and the financial stringency will be felt by the students as much as by anybody, making it very improbable that many of them could afford to take a trip to see a play-off for the Intercollegiate honors.

## CALIFORNIA LOSE SWIMMING MEET BY DROPPING RELAY RACE

By a margin of one point California lost Friday evening's P.A.A. swimming to the Olympic Club. The Blue and Gold men had everything their own way until the last lap of the relay, which changed the score to 45-42 in favor of the club men.

McElroy, of California, was put against Small in the fatal lap of the relay. He had four yards lead and made a good start, but the Winged O champion was too fast for him. At the turn the two contestants were even. Both swimmers churned down the home stretch almost side by side, Small only won by six inches, but it was just enough to take the race and the meet.

The Blue and Gold men placed in the following events:—

50-yard dash—First, Small (O.C.); second, McElroy (U.C.); third, Kendrick (O.Y.M.C.A.) Time, 26.3.

440-yard dash—First, Langer (U.C.); second, Resourse (U.C.); third, Spencer (O.Y.M.C.A.) Time, 6:1-2.

100-yard dash—First, Small (O.C.); second, Smith (U.C.); third, Booth (O.C.) Time, 58.1.

## NEW DANCES BANNED AT N.B. UNIVERSITY

The Dalhousie University football team will not enjoy any of the new dances while visiting the University of New Brunswick at Fredericton. The edict was issued by Chancellor Jones when the students' committee visited him to get necessary permission to hold the proposed dance for Dalhousie visitors this evening.

"No new dances," said the Chancellor, and thus arrangements have been made for a programme of waltzes and two steps.

## AMERICAN COLLEGE RUGBY

At New Haven—Yale 7, Washington and Jefferson, 13.

At Philadelphia—Pennsylvania, 7, Indians, 6.

At New York—Cornell 28, Brown 7.

At Hartford, Conn.—Williams 26, at Princeton—Princeton 16, Dartmouth 12.

At West Point—Army 14, Holy Cross, 6.

At Cambridge—Harvard 13, Penna. State 12.

At Annapolis—Navy 48, Western Reserve, 9.

At Syracuse—Syracuse 20, Michigan 6.

from India, Japan and Egypt.

## YESTERDAY SAW OPENING OF GYM. FOR SESSION

Mr. Lamb Took Charge of the Gym Classes Opening Yesterday for 1914-15

The McGill Gymnasium classes opened yesterday afternoon at 3.15 p.m. with a large attendance, fifty-five men turning up for a good workout. These gym classes, held at the Central Y.M.C.A., are under the personal direction of the popular president of the McGill Athletic Association, Mr. A. S. Lamb, and their benefit to any fellow who wants to feel "fit" can hardly be overestimated. The classes are expected to work in harmonious co-operation with the McGill Regiment in order that those who have enlisted may have an opportunity of relapsing from the more serious duties of the regiment, and of enjoying the benefits of the splendidly appointed gym and swimming tank placed at the disposal of the McGill men.

## BROWN CELEBRATES 150th ANNIVERSARY

This is a gala week in the modern history of Brown University, which has just reached the well-matured age of 150 years. There are, of course, no signs of decrepitude in the fine institution at Providence, for a century and a half is mere youth for a college. Yet Brown is venerable, as the third New England college in point of years, and older than nine-tenths of the colleges of the country. She is justified in her joyous celebration.

Brown has always been a strong force for intellectualism and power in Rhode Island. Nor has her influence been at all bounded by that small state. She has attracted men from every region and has sent them to do strong work into all parts of the earth. She inspires vigor, loyalty and the will to attain in her sons. Such an institution is a definite asset for the whole community. Longer and stronger life for Brown.

## HAZING ENDS IN MURDER

Branding the death of Cadet Wm. R. W. Bowles, of Middletown, Md., from a hazing escapade at St. John's College, here on May 26 as murder, Judge Brashears has urged the grand jury to investigate the tragedy. The five Freshmen who are held responsible for the death of Bowles are George W. Weaver, New York; Henry L. Vauldez, Havana, Cuba; Fendall Marbury, Baltimore; R. A. Jones, Cambridge, Md., and John M. Noble, Preston, Md.

# In Time of War—Prepare for Peace

THE Sound of the drum is the dominant note just now, when our soldiers have shed their gay colored uniforms, and donned the Khaki.

But before long they will return victorious. The Empire will cast aside the sword and the ploughshare will once again be the most important factor in our National Life. Industry will resume its course, and renewed activity in every commercial path will be required to repair the waste of war.

## But in the Meantime---What?

Because of the titanic struggle in which Canada is vitally interested—but from the horrors of which it is far removed—is the Canadian Nation to cease its onward march?

Because 50,000 or 100,000 of Canada's best young men have gone overseas to bear their part like men, and shoulder to shoulder with the best of England's troops, and the flower of sister colonies, and in the same field as our brave French, Belgian and Russian Allies, to fight against the common enemy, shall those who are left behind leave the fields untilled to be overgrown with weeds, and the factories empty, their machines to rust?

Shall our men and women not continue their daily avocation, and made more unselfish by the sight of the greater sufferings of those peoples whose homes the war has sacrificed and ruined, strive by enhanced efforts to repair the waste of war, and by a serene confidence in the future show the enemy that Canadians are worthy of their wonderful national inheritance?

## What, Then, Should the Trader Do?

Be he a manufacturer or a retailer, does it not behoove every employer to keep up his efforts and maintain his trade, knowing that by so doing he is best helping our country by keeping employed as many hands as possible and thus reducing to a minimum the economic suffering---and from a purely selfish view this stand is right.

Even as in war we have seen the best prepared nations gather the first fruits of Victory, so also the business which is best maintained in time of war will profit first and most quickly from the renewed impetus which will begin when the war ceases. Then will the far-seeing merchant who by every means will have sought to advance his position during the more troubled times reap his reward.

Do not be satisfied even now with a defensive Attitude. It is a military axiom that the best defensive is a vigorous offensive—a maxim the truth of which has never been as well demonstrated as in this war—and in business the same is true. A customer, like a fortress, once lost will prove costly to recover.

## Where the War Helps Canada

Our farmers will secure good prices for all their crops.

Our factories will receive many orders for army supplies—Already our boot and shoe, textile and clothing industries have felt the impetus—Millions of dollars are being spent in Canada, not only for Canadian troops, but by the English and French War Departments.

Already the extra expenditure is making itself felt in allied lines, and it is claimed general business throughout Canada averages better than at this time last year.

Keen advertisers, too, have not overlooked the rising tide, and many who in a moment of panic withdrew their advertisements are now once more in the field.

Many wise dealers are even now looking for the trade of their weaker-kneed, stop-their-advertising, despondent brethren.

And we wish them the success which we know their efforts will achieve.

"Faint heart never won fair lady, and the smiles of success will never favor the quitter."

PREPARED BY

The Desbarats Advertising Agency, Limited, of Montreal and Toronto.

## 1914 RUGBY SCHEDULE

DATE	TEAMS	WON BY	SCORE
Oct. 10	Toronto at McGill	McGill	25-1
Oct. 17	Queen's at Toronto	Toronto	21-14
Oct. 24	McGill at Queen's	McGill	16-8
Oct. 31	Toronto at Queen's		
Nov. 7	McGill at Toronto		
Nov. 14	Queen's at McGill		

## George Laing

## R. V. C. Resigns From League

At a meeting of the Montreal Women's Basketball League, held on Friday evening, October 23rd, the R. V. C. Athletic Association tendered its formal resignation from the league. A resolution of regret that this step was necessary was then moved by Miss Eleanor Oughtred and seconded by Miss Bea Ross.

## ROWED A DEAD HEAT

The result of Friday's race between the two Harvard crews, when for the second time this season the boats finished how to how after a mile stretch, is conclusive evidence of the excellent judgment exercised by Captain Murray and coach Wray in dividing the men into two boats supposed to be of equal worth. As in the previous race the boats went down the course practically even, one forging slightly ahead only to be behind a quarter of a mile further on. As the finish line was approached the stroke was raised from 28 to 33, the boats crossing the line in what was officially declared to be a dead heat.

Lund, who has been rowing Number 4 in Crew B was placed in Brown's place at stroke after the race, stroking the crew home from the Union Boat Club.

Varsity football games are becoming more popular in the South each year. The Alumni Club of Fort Worth now want a game with Texas for 1915. Texas has never lacked invitations from the larger cities of the Lone Star State, wanting the games played on their own grounds.

The Freshman team at Princeton is being retarded greatly by lack of material.

His run on Saturday from one end of the field to the other was a feature of match

Pennsylvania.—A school of education as a separate department was formally opened at this university. The new department has forty-five professors and instructors. One of the reasons for its foundation was the necessity of training teachers for the public schools.
